HISTORY & BACKGROUND

Almond oil is an extremely popular, all-purpose carrier oil. The almond is a species of tree native to the Middle East and South Asia. It contains vitamins, such as Vitamin E, minerals, protein and Essential Fatty Acids (EFA's). It is particularly high in the monounsaturated fatty acid called Oleic Acid

APPLICATIONS

Almond Oil is a rich source of Vitamin E making it an excellent addition to skincare products. The most beneficial qualities of Avocado Oil for skin rejuvenation include increased levels of collagen production deriving from the fact that it can penetrate the skin more deeply, relief of damaged skin caused by sun exposure, treatment of dry skin
